

Trafigura Commodity Trading Apprenticeship Programme

Trafigura

Job Description

If you are a current Polytechnic diploma student or A-level holder, have decided not to go to university and you are excited by a global career in commodity trading, we believe we can offer you an unparalleled opportunity.

Trafigura's Global Commodity Trading Apprenticeship can offer you the chance to join a particular business function for a year before being fast tracked to take part in our highly competitive global graduate programme. With a years' worth of real world company experience, your practical expertise will exceed that of external candidates joining the Trafigura graduate programme with Bachelors and Masters Degrees from some of the world's top institutions.

Simply put, opportunities at the end of the programme are unlimited, whether that ultimately be in trading or management.

The programme will start in September 2020.
